PERSONAL PROJECTS

BalkanTip (03/2021 - 03/2022)

– Mathematical result predictions, value bets, in-depth football statistics, liverscores and much more. **App was in production for year but now only works in local at the moment due to Firebase plan change :)**

Verbum Memo (04/2020)

– Language learning app where you can learn and practice new words. App has also creative practice mods with statistics tracking.

Restaurant order app (02/2019)

– Ordering system for restaurants. Visit `/adminLogin (admin@email.com | test123)` to see simple admin POV when user makes order. UI is just an example.

Coffee shop (01/2018)

– Coffee e-shop template application with Snipcart integration.
